And this expectation has not been disappointed. Almost every offender of this class has been set at liberty to renew his crimes. The whole number thus treated approaches one hundred. "As a remedy for kidney complaintathe White Pine Compound stands univaled. It was not originated for that purpose; but a person in using it for a cough was not only cured of the cough, but was also cured of a kidney difficulty of ten years standing. Since that accidental discovery many thousands have used it for the same complaint, and have been completely cured."

The above was written by Dr. Poland, in 1890. Since then, as "in Manchester, the White Pine Compound has taken the lead of all Cough remedies, as well as a proparation for the cure of Kidney difficulties, in very city own, village and hamlet throughout the New England States.

Senator Sherman offered a resolution in Executive session a few days ago, instructing the Military Committee not to report any more brevet nominations. This was intended to relieve the Committee from any embarrassment which they might feel in regard to the nomination of his brother, Lieut. Gen. Sherman, and it is understood to be entirely in accordance with the views of the latter. The Committee will therefore bring in a measure in accordance with these suggestions, looking to the repeal of the law allowing the President or Secretary of War to send in brevet nominations. The leading officers of the army are said to favor this measure, as they consider its unlimited operation calculated to impair the efficiency of the service.

James T. Brady, engaged for the defence, will also be otherwise engaged on the 24th; but the other attorneys for the defense, R. T. Merrick and J. G. Black, will announce their readiness to proceed. We must refer in terms of eulogy to the high tope and varied excellence of HARFER'S Magazine—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choleest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is paged of the month of the American People; and the popularity it has acquired is paged freath. Number contains fully life trace of the American People; and the popularity is and it commens in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—Truthere's Guide to American Literature, London.

We can account for its success only by the simple fact that it meets precisely the popular taste, jurnishing a variety of pleasing and lostructive reading for all.—Zeon's Heruid, Boston.
